Conformity of your Quality Assurance System with EN / AS 9100

Hello Anba,

thank you once more for the welcome in your company from 11. to 15. June 2007.

The Audit of your Quality Assurance System carried-out during this visit showed that your system and its application within your company satisfy our quality assurance requirements.

In order to reach full conformity there still remains those points to be met which we have described in our Assessment Report as Corrective Action Request (C.A.R.).

We are granting you an QM System approval , which is valid until 15. June 2010.

If the goods you supply in future are satisfactory within the approval period the approval will be extended by one year.

Should divergences become apparent with respect to our basis of evaluation, the EN / AS 9100 , then we will contact you again.

Together with this letter we are sending you a "Statement of Assessment". The Report No. 008/07 will be made available in accordance with our agreement to all ASD-EASE members.

We would, however, like to point out that EADS D&S reserves the right to request further product specific quality assurance activities for each order placed.
